Search Layouts

○ Date — Allows users to enter a date or pick a date from a popup calendar.

○ Date/Time — Allows users to enter a date and time, or pick a date from a popup calendar. When users click a date in the pop-up, that date and the current time are entered into the Date/Time field.

○ Email — Allows users to enter an email address, which is validated to ensure proper format. If this field is specified for a contact or lead, users can choose the address when clicking Send an Email. Note that custom email addresses cannot be used for mass emails.

○ Geolocation — Allows users to define locations. Includes latitude and longitude components, and can be used to calculate distance.

○ Number — Allows users to enter any number. Leading zeros are removed.

○ Percent — Allows users to enter a percentage number, for example, '10' and automatically adds the percent sign to the number.

○ Phone — Allows users to enter any phone number. Automatically formats it as a phone number.

○ Picklist — Allows users to select a value from a list you define.

○ Picklist (Multi-Select) — Allows users to select multiple values from a list you define.

● Text — Allows users to enter any combination of letters and numbers.

○ Text Area — Allows users to enter up to 255 characters on separate lines.

○ Text Area (Long) — Allows users to enter up to 131,072 characters on separate lines.

○ Text Area (Rich) — Allows users to enter formatted text, add images and links. Up to 131,072 characters on separate lines.

○ Text (Encrypted) ⓘ — Allows users to enter any combination of letters and numbers and store them in encrypted form.

○ Time — Allows users to enter a local time. For example, "2:40 PM", "14:40", "14:40:00", and "14:40:50.600" are all valid times for this field.
